## HISTORY OF THE SCHOOL

A Healthy mind in a Healthy body' is true not only in the case of individuals but in the case of institutions too. Good quality education can be offered only when the infrastructure and facilities provided are of good quality. ### STRENGTH OF THE TRUST

Inspiration is like a spark. It can light the whole city. Great man with strong conviction has motivated thousands of others to have good education with good values and be proud citizens.

Thiru. A.P. Arul Jothi chose to serve the society by providing all around value based education and established A.V.P. Trust. He believed that knowledge is the core strength of the society. A.V.P. Institutions follows this philosophy and is serving the society in its own humble way and endeavours to be 'a perfect educator'.

### APPROACH

Goals and achievements are the wisdom that comes out of a lot of practical experiences and help to direct our decisions towards success. "Genuine perfection in our school is not simply a matter of spending more; it is a matter of expecting more.

### SIGNIFICANCE OF OUR LOGO & MOTTO

....going above and beyond...

OUR SCHOOL MOTTO is to act as an encouragement towards stronger efforts, to motivate towards noble values, and make stronger at a moment of indecision and weakness.

On the wing, one will rise to reach the pinnacle and be free from all bondages through Competence, Compassion and Commitment to reach the zenith.

Competence is the ability to perform some task and it is the learnt capacity or talent to carry out pre-determined results with the minimum outlay of time, energy or both. As quoted in the Bhagavad Gita, out of Compassion we destroy the darkness of ignorance. From within, the students, we light the lamp of wisdom and dispel all darkness from their lives. The above two involves Commitment which means 'pledge to something'. Commitment ignites action. Our School motto is to enable the students to improve themselves, by encouraging them to put in more efforts, and motivating them to follow the noble values and making them stronger at a moment of indecision and weakness. Hence "Acme the goal".

# MODE OF EDUCATION AND INSTRUCTION

The found of knowledge never runs dry, no matter what success humanity achieves there will still be something to seek, to discover and to learn, in order to impart Standard based and Outcome - based education, for students at the Pre-Primary, Primary and

Middle School Levels, opportunities to learn " Hands-on" Activities and gain "Minds-on" Experiences, the School is following NCERT curriculum and equipped with interactive boards in all classroom for better visual understanding.

The essence of education is not only to train the mind to think but also to bring out the hidden talents in the child as well. The School focusses on the holistic development of the students by providing diverse Extra Curricular Activities and Sports. The National Curriculum Frame work (NCF) 2005 recommends that children's life at school must be linked to their life outside the school. The syllabi and the

text book developed on the basis of NCF signifies an attempt to implement their basic idea. The National Council of Educational Research and Training (NCERT) appreciated the work put into the text books. The Syllabus was so designed to address the problem of curriculum burden by restructuring and reorienting knowledge at different stages considering child Psychology and the time available for the teaching.
